Cyberattack Household Readiness

Small steps. Practical preparation. Keep this page where you can find it.

CASH & ACCOUNT RECORDS

- ☐ Set aside a small cash buffer in small bills at home and keep some in your wallet.
- ☐ Write key account numbers and your bank's phone line on paper.
- ☐ Store the paper offline in a safe, private, out-of-sight spot.
- ☐ Secure accounts: turn on two-factor authentication and use strong, unique passwords.

POWER, RADIO, FOOD & PLAN

- ☐ Charge your phone and a power bank now; top them up nightly.
- ☐ Get a hand-crank/solar radio with AM/FM/NOAA and test tuning local stations.
- ☐ Stock about three days of no-cook food and drinking water per person.
- ☐ Tell your household where cash, radio, and records are and review a card-outage plan.

SAFETY NOTE Keep only a small cash buffer at home, not large sums. Store your paper account records somewhere private and out of plain sight to protect your information.
