Gasoline Shortage Household Prep

Small steps. Practical preparation. Keep this page where you can find it.

DO THESE RIGHT NOW

- ☐ Refuel when your gauge hits half-tank; don't wait until empty.
- ☐ Write your weekly errands and group them into one trip.
- ☐ Check tire pressure when cold using the door-sticker number.
- ☐ Remove heavy items from your car and drive slow and smooth.

IF YOU STORE A SMALL FUEL RESERVE

- ☐ Use only an approved gas can, never milk jugs or food containers.
- ☐ Store cans outside living space, like a shed or detached garage.
- ☐ Keep fuel away from heat, sparks, flames, and children.
- ☐ Let hot engines cool before refueling; never siphon by mouth.

SAFETY NOTE Only store fuel after reading safe storage rules. Keep it small, follow the can's directions and local fire rules, and use a gasoline-rated pump.
