Cut Your Fall Fuel Costs

Small steps. Practical preparation. Keep this page where you can find it.

PLAN SMARTER DRIVING HABITS

- ☐ List your week's errands and group them into one trip-chaining day.
- ☐ Ease onto the pedal and avoid hard braking or fast starts.
- ☐ Look ahead and coast to red lights instead of braking hard.
- ☐ Back off your highway speed a little for steadier driving.

LIGHTEN AND TUNE YOUR CAR

- ☐ Check tire pressure cold using the door-jamb sticker number.
- ☐ Clear extra cargo from your trunk and back seat.
- ☐ Remove roof racks or cargo boxes when not in use.
- ☐ Use a free fuel-price app to pick a cheap station you pass.

SAFETY NOTE Check tires when cold, before driving far. Don't drive far out of your way for cheaper gas; the extra miles can cancel your savings.
